

What is Essential Oils

An essential oil is a concentrated hydrophobic liquid containing volatile aroma compounds from plants, or simply as the oil of the plant from which they were extracted.

What is Aromatherapy

French chemist, Ren -Maurice Gattefoss  can be credited with coining the term Aromatherapy in 1928 in an article supporting the use of Essential Oils in their whole without breaking them down into their primary constituents. Aromatherapy can be offered as a complementary therapy alongside standard treatment through topical application, massage, inhalation or water immersion to stimulate a desired response.

Aromatherapy at the Comfort of Home

With Reeds Cosmeceutical Essential Oils, the benefits of aromatherapy can now be reaped from the comfort of your home. It is important to know what's involved when using essential oils at home so you can properly and safely enjoy the benefits it can offer. Practicing home aromatherapy starts with understanding how to handle these powerful oils and which scents you may want to choose.

- ✓ **Oil Burners/Nebulizer Diffuser** – add 6 drops of essential oils in an oil burner or electric diffuser to enjoy the pleasant atmosphere or the therapeutic benefits of the oil.
- ✓ **Steam Inhalation** - good for colds and flu. Add about 2~3 drops of Eucalyptus or Peppermint into a bowl of hot water, then lean over the bowl and cover your head with towel for about ten minutes as you slowly inhale. For children and the elderly, reduce the dosage by half.
- ✓ **Sprays** - Fill 180 ml spray bottle with distilled water and add 10~12 drops of the essential oil of your choice. Shake well and use it to spray around the room. Easiest way to quickly purify and freshens the air in your home or office.
- ✓ **Aromatic Bathing** - Adding essential oils to your bathwater makes bathing a more pleasurable and highly relaxing experience. Add 6~8 drops of essential oils into the bathwater.
- ✓ **Massage** - dilute 6 drops of essential oil in 15 ml of carrier oil, and then applied to the skin. Smoothing this blended aromatic oil into tired muscle is the most pleasurable ways to relax and unwind.
- ✓ **Compresses** - mix 5~6 drops of essential oils into every litre of warm water. Soak a clean cloth in the mixture, rinse and apply to the affected area. Leave it there for 15~20 minutes, repeating as needed. A fast and effective way to speed recovery from muscular pain and strains after a rigorous workout, and a treatment for bruises, headaches, insect bites, toothache, sports and more.
- ✓ **Free-&Easy** - Add 2 drops of Lavender essential oil to your pillow for a relaxing sleep; occasionally inhaling Peppermint or Rosemary from a handkerchief helps concentration when study or driving.

Eucalyptus Essential Oil

Common Name:	Eucalyptus
Botanical Name:	Eucalyptus Globulus
Plant Part:	Leaves
Extraction Method:	Steam Distillation
Country of Origin:	Australia
Safety Precautions:	Avoid use during Pregnancies

Characteristics

Eucalyptus Oil Uses

Arthritis, catarrh, cold sores, colds, coughing, fever, flu, poor circulation, sinusitis, jet lag, skin infections.

Suggested Application

A few ways to enjoy the benefits of Reeds Eucalyptus Essential Oil:

- ✓ Add 4~5 drops in warm water for that soothing & revitalising effect on tired & swollen feet.
- ✓ Add 3~5drops in a full bath of warm water to make full use of its anti-fungal & anti-septic properties.
- ✓ Add 3 drops of Eucalyptus and 3 drops of Lavender in a burner/humidifier to clear stuffy air, control dust mites & decongest nasal passages.
- ✓ For back and muscle aches including arthritis and rheumatism, dilute 8 drops of Eucalyptus into 60 ml of carrier oil and massage gently into the affected area.
- ✓ Use with a deodoriser for musty areas and smoking zones.

Precautions

Do not take essential oils internally. Do not apply to broken or irritated skin. If skin sensitivity occurs, discontinue use. Do not use undiluted on skin and avoid contact with eyes. Seek medical advice before use if you have a medical condition (such as epilepsy, high blood pressure, etc.). Consult your professional aromatherapy practitioner or medical professional when in doubt.

Storage

Keep essential oil away from sunlight. Keep out of the reach of children.
